PERSONAL STATEMENT

Innovative Software Developer with expertise in web and mobile application development. Offering 4 years of experience in the software development lifecycle. Keen and quick to learn and master new technologies and work in both team and self-directed settings.

WORK EXPERIENCE

GMT CONSULTS LTD - *Kampala, Uganda*
January 2019 - PRESENT
Software Developer- Full Time

- Contributed software engineering expertise in the development of products through the software lifecycle; from requirements definition through successful deployment.
- Excelled in rapid application development and management of technological issues for assigned projects; earning the highest customer satisfaction rating for all software solutions delivered.
- Introduced methodologies and best practices that enhanced product definition, release processes, and customization of applications to user needs.
- Developed object-oriented software, including VEKTA for use in Uganda National Roads Authority (UNRA).
- Used ArcGIS to visualise data of different project affected persons on the VEKTA application.
- Collaborated with developers and performance engineers to enhance supportability and identify performance bottlenecks.
